2022 - 2024

NESN :: Senior Front End Developer

- Built a custom plugin to house and streamline WordPress block development
- Developed dynamic blocks that consumed and displayed API data from Sportradar
- Created custom blocks, block templates, and patterns to simplify editorial tasks
- Upgraded legacy React code to improve onboarding for the NESN 360 React app
- Built and styled React components using React Hooks, Router, and the Context API

2019 - 2022

The Mx Group :: Front End Developer III

- Overhauled coding practices to create efficiencies and improve code quality
- Upgraded build tools and implemented code linting to promote stronger standards
- Spearheaded work with new technologies like React.js, Next.js, and Gutenberg
- Optimized our WordPress scaffold for Gutenberg blocks and React components
- Created custom Gutenberg blocks and dynamic blocks utilizing the data API
- Built and maintained WordPress sites using ACF or Advanced Custom Fields
- Developed a SPA with Next.js that included a component library, design system, and multiple page templates

2018 - 2019

10Up :: Front End Engineer

- Developed components, features, and page templates in WordPress using HTML, CSS, JavaScript and PHP
- Contributed to various high-profile projects for the NBA, WNBA, NBA2K, ESPN, Microsoft, and 9to5Mac
- Met WordPress VIP's strict coding standards as well as a11y and l18n guidelines
- Expanded my coding skills related to JavaScript/ES6, React, and CSS Grid Layout

2017 - 2018

Lucid Agency :: Web Developer

- Modernized the development process to take their digital team to the next level
- Implemented version control and leveraged build tools like NPM, Gulp, and SASS
- Created a custom WordPress starter theme that facilitates modular development
- Refined internal processes to streamline projects and institute quality standards
- Developed multiple custom WordPress sites for internal projects and new clients
- Mentored junior developers and conducted internal code reviews

2014 - 2017

Zenman :: Senior Front End Developer

- Lead developer of 15+ custom WordPress sites/themes over 3+ years
- Modular development utilizing HTML5, CSS3/SASS, JavaScript, PHP, and ACF
- Effectively managed project expectations, timelines, and client communications
- Promoted to Senior Front End Developer during my tenure
- Conducted code reviews and testing to ensure deliverables met quality standards
